

## First Online EMBL PhD Symposium

December 4 - 8, 2006

**Life Sciences - Shaping the Future**

*This online symposium provides a meeting place for people involved in biosciences.*

*We invite prominent scientists to share their vision on development of life sciences in selected fields in a form of web-based presentations and invite everyone else to further discuss it and present their own views in a similar fashion.*

*A special focus is on the prospects of career development for young bioscientists.*

**Among the confirmed speakers are ...**

*Tim Hunt (London Research Institute, UK) – Nobel Laureate 2001*

*Michel Morange (Centre Cavallès, École Normale Supérieure, France)*

*Stuart Kim (Stanford University, USA)*

*Roland Krause (MPI for Molecular Genetics, Germany)*

*Leroy Hood (Institute for Systems Biology, USA)*

*Stefania Bettini (European Commission)*

*Seema Sharma (Science's Next Wave, UK)*

*Uwe David and Victoria Reichl (KoWi)*

*Isabel Arnold, (The EMBO Journal, Germany)*

*Lone Frank (Newspaper Science Writer, Denmark)*

*and many others...*

***Everybody with a scientific background is invited to participate.***
